PENNSYLVANIA SOCIETY HOLDS ANNUAL SESSION

The Third Annual meeting of the Pennsylvania society, which was held yesterday afternoon in Epworth hall of the First M. E. church on North Palmetto avenue, was a very successful and pleasant gathering of citizens from the Keystone state. About 60 persons were present.

Following a piano solo, cleverly rendered by Miss Florence Wismer, of [illegible], Penn., the meeting was called to order by J. R. Hill, president of the Pennsylvania State society, winter resident of this city, with a summer home in Hendersonville, N. C. Ira Dale, of Franklin, Penn., who is spending the season here in company with his family, at 422 South Palmetto avenue, made an interesting address on the production of oil in Pennsylvania, a subject on which he was evidently familiar and handled in a masterly manner.

Mrs. S. L. Oakes, of Blairsville, Penn., a regular Daytona winter visitor, who is located at 47 Third avenue, read a very pleasing poem on "Pennsylvania Rivers."

On account of the present disturbed condition in Europe, Mr. and Mrs. Spalding are coming to Florida, the Italy of America, and we are sure that every effort will be made to make them appreciate this the "Prettiest Resort in the World." It is hoped that Mr. Spalding can be prevailed upon to remain here over Wednesday when Alfred Donnelly plans to entertain them with a ride on the famous Ocean beach.

GOT $20,000 FROM HEARTS OF TREES

When Albert Spalding steps upon the New Daytona theatre stage next Tuesday evening, he will have in his hands something over $20,000.00.

This wealth was obtained some two centuries ago, from a pine tree and a maple tree—trees that had laughed and sighed, and sang in summer, and moaned and tossed in winter. These trees had their moods. Joseph Anthony Guarnerius knew this, and, wishing to make them long life—fashioned them into a violin. He was a master craftsman. He loved his work. A block of straight grained pine wood was a gold mine to him and so he transformed trees into voices that would sing to the world a new song. **His violins are among** the most precious in the world. Mr. Spalding possesses one of these genuine and almost priceless instruments, with rare and beautiful tone. He has another, which he will use for the lighter numbers—a genuine Montagnana (1700-1740) worth $4,000. This famous fiddle maker was a pupil of the great Stradivarius. The pupil started his own shop in Cremona, but later moved to Venice where he felt more free to carry out his own ideas.

CHARLOTTE IVES USES PET PARROT IN SOTHERN FILM

Charlotte Ives is the feminine star who has the honor of supporting the most famous actor of the modern stage, E. H. Sothern in his third Vitagraph Blue Ribbon Feature, "The Man of Mystery," which is the headliner on an all-star bill at the Crystal theatre on Monday.

In the production, which is from Archibald Clavering Gunter's "The City of Mystery," and which was directed for the Vitagraph company by Frederic Thompson, Miss Ives gives her pet parrot a chance to outrival her in the affections of the motion picture public.

The parrot, which sits on the back of her chair in a number of scenes, was given Miss Ives two years ago by an ardent admirer of her work behind the footlights.

The parrot is a bird of beautiful plumage and exceptianally bright, as Miss Ives testifies without hesitation. No matter where the star goes the parrot goes also. He generally makes his home in her dressing-room, where she pets him whenever off the stage or studio floor, as the case may be.

In fact, Miss Ives declares that he knows some choice selections from every role she has ever played.

Exorbitant Possibilities.

"Sometimes I am in favor of peace at any price." "Yes; there is often a temptation to feel that way. The only difficulty is that the man who controls the supply is liable to keep boosting the price till you find you can't raise it."—Washington Star.

"THE BIRTH OF A NATION" COMING TO DAYTONA SOON

In each of the large cities where D. W. Griffith's "The Birth of a Nation," which will soon be seen at the New Daytona theatre, was produced last summer there were long lines of patrons waiting to buy seats at the box offices. Absolute capacity was the rule for many months. During the [illegible] that had fallen upon the [illegible] these lines of "queques" of prospective buyers had practically disappeared. "Oh, there won't be any advance sale," said the box-office attendant wearily, when asked about advance sale. It took a Griffith production of pictures and music—not words—to bring back the long absent queques. New York, Chicago and Boston theaters looked like old times again, with the box office forces doubled and the lines of "The Birth of A Nation" admirers stretching to the curb or even to the next street. The same phenomenon has been repeated in all the other cities which the play has visited the present season. It means of course that the high-class theater is not moribound. Only the touch of David W. Griffith's master wizardry has been required to infuse it with life.

Chicago.—Human beings inhabited the North American continent more than 125,000 years ago, according to the findings of E. H. Sellards, state geologist of Florida, and Prof. Oliver P. Human bones intermingled with those of the mastodon, saber-tooth tiger and other extinct animals, were found in the deposit at Vero, Fla., and thither six geologists and anthropologists made their way immediately to study the find. Their report will be made in the January-February (1917) issue of the Journal of Geology. Advance sheets quote Mr. Sellards as saying:

"The study of the fossils of this stratum, although not yet completed, has brought to light a considerable number of extinct species which suggest the reference of the deposit to the Pleistocene period. This is the oldest deposit from which human remains have ever been taken."

Doctor Hay, who is research associate of the Carnegie Institution of Washington, expresses similar views; but four other scientists, whose articles will appear in the Journal of Geology, are skeptical. AUTO ACCIDENT VICTIMS RECOVER AND LEAVE CITY

Mr. and Mrs. J. L. Walter, of Rising City, Neb., who were painfully injured in an automobile accident in this city the last week in January and entered Dr. Klock's hospital for treatment, were sufficiently improved to be able to take their departure Thursday of this week in their car. While admiring the scenery along Ridgewood avenue, Mr. Walter ran his automobile into a tree and fragments of glass from the windshield cut Mrs. Walter severely about the face and head, while Mr. Walter was badly bruised by contact with the steering wheel and it was at first thought to be injured internally. Mr. and Mrs. Walter had motored south in their car on an automobile camping trip and have been making a tour of Florida.

Thomsoln & McKinnon: "Transactions in the stock market today dwindled to very small proportions and the market for the greater part exhibited a dragging tendency in a moderate way. We see nothing at the moment to encourage bull position, believing that a declaration of war between this country and Germany, should it come, would result in a further, although possibly temporary break in prices. The fundamental position is such that this break would probably not be extreme, and after the first shock there will probably be plenty of incentive for another bull campaign. Our advice is still to liquidate holdings with a view to reloading when real bargains are offered."

E. F. Hutton & Co: "It is the investment market more than the speculative market that is suffering. Good bonds, as well as investment stocks, are hard to sell. This in turn affects other securities and causes an unwillingness to buy which limits the market. Until we know whether it is peace or war this state of affairs will continue. Good securities have become so cheap that the gilt-edge stocks are cheaper than they have been for years but they are coming into competition with foreign loans which are selling on a six to eight per cent basis. Fortunately technical conditions are good. The street is comparatively bare of stocks."

MISS LOLITA ARMOUR

Miss Lolita Armour, only child of Mr. and Mrs. Ogden Armour of Chicago, recently made her debut in Chicago society.

Miss Armour is one of the most charming of this winter's debutantes. It is only a few years ago that it was almost conceded that she would be a cripple for life. The fame of the noted German surgeon, Doctor Koch, having reached this country, J. Ogden Armour, the little Miss Lolita's father, decided after having heard of the marvelous bloodless operations performed by the famous surgeon, to bring him here from Berlin. That his faith in the physician was well placed is shown now when Miss Armour, a healthy, vivacious young society bud, fond of all outdoor sports, is about to make her debut. Her addition to the ranks of this season's debutantes is looked forward to with pleasure.

BURNS CURED BY SUNLIGHT

Johns Hopkins Hospital Tests Open-Air Remedy With Success in Number of Cases.

Baltimore, Md.—A new method of treating serious burns that involves the use of air and sunlight has been put into practice at Johns Hopkins hospital, and already in a number of cases has been successful.

"Nature cures" have been recognized as the most practicable in a rapidly increasing list of ailments. The general idea back of all these methods is that nature, with a fair chance, will do more for the sick body than will drugs or surgery.

In treating burns a small part of the injured surface is exposed directly to the sun and air out of doors. The best results are obtained in temperate weather, when the patient can lie at ease for hours under the direct rays of the sun and the influence of the air. In colder weather only more indirect exposure is possible, and then the results are not rapid.

As a result of the treatment skin grafting will not have to be used in a number of cases. The effect of the air and sunlight cure is to keep alive much of the burned tissue, and in time this tissue grows out over the burned surface.

Bell Heard Forty Miles.

Santa Barbara, Cal.—The same electric power employed in ringing bells has transmitted sound through space 40 miles. In experiments by Dr. H. B. Arringer Cox, the ringing of an alarm clock at Los Olives has been faintly recorded at his station outside the city limits. It is wireless and the power used is the ordinary dry battery, which Dr. Cox invented several years ago.

SIXTH ISSUE OF "SAND-CRAB" IS ON SALE TODAY

The "Sand-Crab," the annual publication of Seabreeze high school, was issued today from the Burgman Bros. printing office for the sixth time.

The present issue is a neat magazine about seven inches by ten inches in size, with buff and gold cover and about 40 pages of reading matter. It is well illustrated by half-tones of the members of the various classes, all of which are in separate pictures, and by other pictures and art drawn by the pupils. The frontispiece is a good drawing of the new school building on Earl street into which the pupils will soon move.

The pupils of Seabreeze high school put in a good deal of time each year in English and literature work, preparing suitable material for their annual. Such a task means more work for the individual pupils in Seabreeze because it has only 25 members.

The "Sand Crab" has grown in every way since its first issue in 112. It is better illustrated and contains much more reading matter now than in its first numbers. Miss Martha E. Brown became the assistant principal of Seabreeze high school in 1912 and it is owing to her work, suggestions and guidance that the "Sand-Crab" has been a success every year since.

This publication is self-supporting, the merchants and business men of this vicinity having purchased more than 26 pages of advertising or nearly enough to equal the cost of printing. In previous years a small profit has resulted from the sale of the papers. The present edition numbers 350 copies which will be sold for 25 cents each.

SEABREEZE

Mr. and Mrs. T. L. Howard, who have been visiting in Seabreeze for several days, left Friday afternoon on their return to their northern home in Baltimore, Md., where they are called by the illness of Mrs. Howard's mother, Mrs. A. G. Brown.

Among recent arrivals in Seabreeze are Mr. and Mrs. T. V. Bauer, of Grand Rapids, Mich., who are now stopping at a local hotel. These people were residents of one of the Kochenperger cottages on the beach front five winter seasons ago. They have spent the past two years in California.

J. B. McClintock, who has been visiting for the past week at the home of Mrs. C. W. Jacocks and daughter, Miss Rosina, left Thursday for other points in the state after a pleasant stay. Mr. McClintock is a pleasant young gentleman and made many friends and acquaintances during his sojourn at the beach. He formerly attended Rollins college.

Dr. N. De Vere Howard and niece, Miss Morrison, who have been spending the past few months at Dr. Howard's beach cottage on Atlantic avenue, returned to their Sanford home Friday, having rented their home here for the remainder of the season.

DAYTONA BEACH

Mrs. Nettie Kurtz returned Friday from a several days' trip to Tampa and the Gasparilla celebration.

Mrs. A. G. Batchelder leaves Sunday on her return to Washington, D. C., to join her husband at her home there after a visit of several weeks with her mothers, who has been quite ill at her beach home. Mr. Batchelder is the head of the Good Roads department of the American Automobile association.

DAYTONA MAN PURCHASES GEO. L. FARRELL RESIDENCE

Chas. J. Banta closed a transaction Friday, purchasing the large residence of George L. Farrell, of Pittsburgh, Pa., on Halifax avenue and the river front at the western end of Oak Ridge boulevard. Mr. Banta will occupy the house as his winter home.

Mr. and Mrs. Farrell have been winter residents here for many years, having built the house which they have just sold.

TOURISTS PRAYER MEETING NEXT WEDNESDAY NIGHT

A unique prayer meeting will take place next Wednesday night at the Daytona Beach Methodist church for the winter tourists to Daytona Beach and Seabreeze.

Smith G. Young, of Halifax avenue and Lansing, Mich., will have the evening's program in charge. The following interesting talks will be given: "The Need of the Bible in the Public Schools," Professor Homer E. Wakefield; "Billy Sunday in Action," L. H. Ayers; "The Value of the Press in Religious Work," Dr. J. M. McLear; "Winona in the Summertime," Mrs. C. C. Van Nuys; "The Call of the President for Prayer," J. H. Colliver.

Calling the Children.

Don't shout at the children when they are out of doors and you wish them to come to the house. Call them with a small bell or whistle. The sound will go farther than the voice carries, and there will be no strain on the vocal cords.

AN EARLY SETTLER OF NEW SMYRNA DIES

The New Smyrna News of yesterday carries a notice of the death in that city from paralysis the preceding day of Mrs. Morrison Lewis, who is known to many of the older residents of Daytona and other places along the coast. The article says in part:

"In the death of Mrs. Morrison Lewis about 10 o'clock yesterday forenoon, New Smyrna loses another of her pioneer residents, and a woman who was closely identified through many years with the growth and development of this community.

"Mrs. Lewis was a native of Ohio in which state she was born 75 years ago, and where she spent her girlhood days.

"Shortly after the war between the states Mr. Lewis, who was also a native of Ohio, came to this section, and finding it a place to his liking, determined to settle here. He went back to Ohio, where he was married and with his bride returned and settled here nearly 50 years ago on the place on Canal street which he and Mrs Lewis have made their home ever since. When they came here there were but four other families in the place, and they necessarily underwent many hardships during pioneer times.

"Her husband, three children and five grandchildren are left to miss her presence here."

RETURN FROM MOTOR TRIP TO WEST COAST

Mr. and Mrs. J. H. Donnelly returned Friday evening from their automobile trip to Tampa where they had gone the forepart of the week to witness the Gasparilla festival. They had a very enjoyable outing and were highly pleased with the fair both agreeing that the Elks' float was the finest thing of the kind they had ever seen. The Masonic float was also excellent, they say, as were many others. With the exception of the few miles of sand south of Kissimmee the roads are very good, Mr. Donnelly says. Most of the road is bricked but there is one section of asphalt south of Kissimmee.

ENJOYED MOTOR TRIP TO THE COUNTY SEAT

W. C. Woodworth and sister, Miss Ida L. Borden, of Rochester, N. Y., season guests at the Despland hotel, motored over to DeLand Friday with Mr. and Mrs. E. W. Moore, of Benton Harbor, Mich., who were their guests at dinner at the College Arms while in the county seat.

At Least Not Noticeable.

It was at a breach of promise suit, and the rustic defendant was under cross-examination. "Now tell me, please," said the counsel, sternly, "on the evening of the sixteenth when you bade her good-by, did she suffer you to kiss her?" "Well," said the witness, slowly, "I reckon now I did give her a kiss or two; but there wasn't much sufferin' about it as I could see."

Horses Affected by Shells.

The nervous shock from exploding shells is so great that it oftentimes brings horses up in their tracks, apparently incapable of moving. Horses occasionally fall down and give every appearance of having been shot, though actually unhurt. Dogs suddenly and unaccountably go lame, though uninjured.

Hops Used as a Vegetable.

Hops, which are not recognizable in the form we use them, were eaten for themselves as a vegetable by the Romans of old, and still are by the Bavarians, who choose, rather than the blossom, the tender top shoots of the plant and prepare them in much the form of an asparagus salad.—Exchange.

To Avoid Colds.

In brief, if you wish to be absolutely immune from colds of all kinds, and their more serious sequences, here is the recipe: Eat abstemiously of unstimulating food. Fast occasionally. Avoid table salt, woolen underclothing and foul air, and harden the body by exposure to the air and sun, and occasionally to cold water.

Peculiarity of Cat's Eyes.

As showing how widely the permanently blue eyes of cats differ from other eyes, it is noted that immediately the eyes of white cats that are to have permanently blue eyes open they shine bright red in the dark, and neither the ephemeral kitten blue nor any other colored eye does this.

Oil-Proof Cement.

A cement which will not be affected by oil is made by mixing glycerine and litharge to the consistency of a thick paste. This will be found very handy in repairing cracked oil reservoirs or in making an oil-tight joint between two metal plates. The cement should be applied as soon as it is mixed, since it hardens very quickly.

Greece's Petroleum Springs.

Petroleum springs in Greece, described by a historian of 400 years before Christ and visited during the succeeding [illegible] years, are bubbling forth [illegible], and seem to be exploited by [illegible] of the vicinity.

Frequently Happens.

"There's always room at the top," said the man who speaks sententiously. "Yes," replied Broncho Bob, "but the trouble is that in a lot o' games the best cards is at the bottom of the pack."—Washington Star.

Trees Benefited by Tapping.

India rubber trees which are tapped every other day continue to yield sap for more than twenty years, and the oldest and most frequently tapped trees produce the richest sap.

SIXTH ISSUE OF "SAND-CRAB" IS ON SALE TODAY

The "Sand-Crab," the annual publication of Seabreeze high school, was issued today from the Burgman Bros. printing office for the sixth time.

The present issue is a neat magazine about seven inches by ten inches in size, with buff and gold cover and about 60 pages of reading matter. It is well illustrated by half-tones of the members of the various classes, all of which are in separate pictures, and by other pictures and art drawn by the pupils. NEWS OF THE HOTELS

Mr. and Mrs. Rufus Gordon Barr, of New York City, who are guests at the Princess Issena, were a striking couple noted on horseback yesterday afternoon. Both ride with the natural grace characteristic of finished equestrians. Mr. and Mrs. Barr are also spending many mornings in the Clarendon bowling alleys.

Samuel J. Buckingham, of Toronto, who is making his first visit to Daytona, is so delighted with his choice of winter resort that he will remain until the late March days. Mr. Buckingham is pleasantly located at the Seville on Beach street, and says that Daytona and its many attractions have won him as a habitue.

Noted upon the Clarendon golf links Friday afternoon were E. J. Orme, of Washington, and George Lake, of Greenwich, N. Y., who are season guests at the Seville. These gentlemen play every day of the Seabreeze course and say that they find golfing the best thing to do. Both are devotees of the game and have made some record scores upon the course.

Touring Florida are Mr. and Mrs. P. A. Oliver and daughter, of Perry, N. Y., who arrived at the Seville on Friday from St. Augustine where they have been making a eight weeks visit. The Olivers are deeply impressed with Daytona as a resort and will make a week's stay, thence taking up their journey in their motor car for Palm Beach and Miami.

Mrs. E. M. Watson and daughters, Miss M. S. Watson and Mrs. M. J. Ward and Mrs. E. M. Richards, of Jersey City, N. J., have come to Daytona for the season and are guests at Schmidt's hotel. Mrs. Watson formerly spent her winters in Daytona but returns this season for the first time in four years. She has spotted [illegible] for the many improvements she finds here.

W. W. Stokes and Miss Katurah Stokes, of Morristown, N. J., have returned from a fortnight's trip to Palm Beach, Miami and Havana, Cuba, and are guests of the Prince George for several days en route north. Although they had not intended stopping at Daytona on their way home, they were delighted with the resort on their first visit and were unwilling to leave Florida without a second visit here. Pretty Miss Stokes is receiving an enthusiastic welcome from the members of the dancing contingent.

At the [illegible] hotel on Ridgewood avenue, Monday afternoon, [illegible] W. L. Dowler, of Cleveland, a season guest at the hotel, will give a victrola recital for the benefit of St. Mary's church. CLARENDON TEAMS DEFEATS PLAYERS OF HOTEL ORMOND

HOTEL ORMOND, Feb. 9.—The Prizes donated for the Blind Bogey handicap, which was played for Thursday on the Ormond Beach golf links, were won by Mrs. E. H. Steedman, who was fortunate enough to win the first prize, Wallace Phinson winning the second. The prizes were donated by E. M. Johnson, of Spuyten Duevil, New York.

The Clarendon baseball nine won the game yesterday—the score being five to four. As the score shows it was a well-fought game, and much enthusiasm and great cheering were indulged in by the spectators. They will play again next week.

A large party of guests from the Ormond took the Tomoka trip yesterday, and reported that they were delighted with the trip.

J. A. DuPuy, of Rochester, N. Y., a golfer and a former valued patron of the Ormond, has joined the Rochester colony at the Ormond for the balance of the season. Never before in Ormond's history has it entertained so many Rochester people, and a very agreeable and gay set of guests they are. May they always return and stay long.

Mrs. Henry Spadone and Miss Blanche Spadone, of New York City, have arrived at the Ormond for the balance of this month. They expect to be joined by Mr. Spadone in a few days.

Mrs. Frank Sellison, Jr., of Philadelphia, Pa., has joined her husband Mr. Sellison who has been here for some time with Mr. and Mrs. G. L. Estabrook.

Miss Frances E. White and Miss Harriet N. White, of Brooklyn, N. Y., have arrived at the Ormond for an extended stay.

Mr. and Mrs. C. W. Carpenter, of New York City, are registered at the Ormond.

The Valentine sale for the aid of St. James Episcopal church, which was held in the Ormond rotunda on Feb. 10th, was a great success, both financially and otherwise. The ladies in their lovely gowns and hats added much to the beauty of the scene. Tea was served in the afternoon, for which a tax was levied, and the orchestra played during the afternoon. Valentines and other fancy articles were sold, and the booths were very bright and attractive. They realized a goodly sum.

We can't think of anything but the Elks' Charity Ball. We are going to get all dolled up and fly the regular colors that night.

Awaiting Its Time.

One age cannot comprehend another; there, too, it takes time to disengage, subordinate, eliminate. Truth of this sort is not the elaboration of one keen or strong mind, he secret experience of many; nihil sine aetate est, omnia tempus expectant. "Nothing is without its age and date; all things wait for their time."—Dean Church.

Absent-Mindedness.

Our intellect follows our interest. And to concentrate on any subject we must find or create some real interest in it. The creative minds of the world—inventors, composers, artists, even industrial magnates—are so absorbed in their ideals and ambitions that they seem "absent" to persons without ideals or ambitions.

Fond Mother's Pride.

"I suppose your son was well prepared for college," said the casual friend. "Yes, indeed," replied the fond mother. "The president wrote the faculty could not teach him anything, so they permitted him to come home."—Richmond Times-Dispatch.

Mist is just one of the ways that we see the water in the air. It is something like a cloud only near the ground.—From Boys and Girls Ask-at Home Questions.

JAQUITH ON FLIGHT FROM JERSEY HAS NOVEL EXPERIENCE

Edward K. Jaquith, un-official representative of the United States Signal corps department of Aviation, who is flying from Atlantic City, N. J., to Palm Beach, is a guest at the Clarendon during his stay in Daytona. Mr. Jaquith is using a Curtis flying boat of the type generally in use by sportsmen/ which was presented to him by an aviation club of New Jersey for having carried more passengers than any other aviator in America. His trip to Florida is primarily to find a site for the government school of aviation to be established shortly at some point in the south. Leaving Atlantic City four weeks ago, he has made the trip by easy stages stopping for three weeks at Currituck Sound, N. C., for duck hunting, his novel method of hunting being to shoot from his machine. "I had better luck with geese than ducks, shooting from the machine," said Mr. Jaquith frankly, "for a good wide awake duck will give one a run for his money, but with geese the chances are about 50-50." Savannah authorities take perfectly good care of their city and when Mr. Jaquith landed with a two days' growth of beard and liberally covered with machine oil, they arrested him on suspicion—"for why," said they, "should he take up his abode in the air when a dangerously near zero temperature made air in general and upper air in particular much to be avoided?" Being suspicious of anything contrary to their conventions and unduly suspicious of aviators, they held him until the Washington authorities wired proper credentials. Mr. Jaquith being a thoroughbred sportsman, accepted the experience as part of the game and when a telegram from Washington proved that the lack of a shave and a few spots of oil are not acceptable in Sherlock Holmes' circles as marks of a criminal, he laughed not with, but at the sedate authorities. Mr. Jaquith will fly from Daytona to Palm Beach to spend the winter.

Fred H. Ward, W. A. Nelson, J. Disbolt and William J. Cater were an auction group at the Clarendon Thursday night, whose cleverly played hands and hard fought rubber attracted the attention of many of the inveterate players at the hotel.

The most notable arrival at the Clarendon Thursday was Mrs. J. Ledlie, Hees, of Gloversville, N. Y., who has as her guest Mrs. B. Foster Wilkinson, of Johnstown, N. Y. Mr. Hees, who was a guest at the Clarendon two weeks ago, is president of the Fonda, Johnstown & Gloversville railroad and his personality is well known in New York state financial circles. Mr. and Mrs. Hees own a beautiful estate at Sacandaga, N. Y.

Mr. and Mrs. W. A. Alexander and Mr. and Mrs. C. G. Alexander, of Chicago, Ill., have joined the season coterie at the Clarendon, according to their usual custom, and are being cordially welcomed by many friends who like themselves, have spent several winters at the hotel.

Mr. and Mrs. E. H. Krom, of Boston, Mass., are enjoying a week's stay in Seabreeze as guests at the Clarendon.

Mrs. A. L. Whiting and Miss Elizabeth Whiting, of Chicago, Ill., are interesting late additions to the social life of the Clarendon.

Mr. and Mrs. George M. Stearns, of New York City, and Mr. and Mrs. Edward Orning, of Stamford, Conn., were luncheon guests at the Clarendon Thursday en route to Palm Beach in their cars.

R. Hill, of Minneapolis, H. Goelitz, of Chicago and M. Lewis, of Philadelphia, are late additions to the many automobilists at the Clarendon.

Mr. and Mrs. W. A. Haughton, of New York City, and Mrs. J. C. Wilcox, of Larchmont, N. Y., composed an automobile party who stopped for a short stay at the Clarendon on their way south.

Mr. and Mrs. F. B. McQueen, of Boston, Mass., and Mr. and Mrs. Paul Gring and George E. McQuesten, of Cambridge, Mass., are again at the Clarendon, according to their yearly custom for a week's stay en route to Palm Beach. They are driving down in their car.

Mr. and Mrs. J. Page Laughlin, of Leesburg, Va., have joined the Laughlin family at the Clarendon, arriving Thursday.

Mrs. W. A. Haughton, New York City; Mrs. J. C. Wilcox, Larchmont, N. Y.; Mr. and Mrs. F. B. McQuesten, Boston, Mass.; Mr. and Mrs. Paul Gring, Geo. E. McQuesten, Cambridge, Mass.; R. Hill, Minneapolis, Minn.; H. Goelitz, Chicago; M. Lewis, Philadelphia, Pa.; W. B. McBurney, Atlanta, Ga.; Mr. and Mrs. J. Page Laughlin, Leesburg, Va.; Mrs. J. Leddie Hess and maid, Gloversville, N. Y.; Mrs. B. Foster, Wilkinson, Johnstown, N. J.; Miss Mabel B. Miller, Philadelphia, Pa.
